Career break

08/2022 - 10/2023

Took a year off my career to learn Full Stack Web Development concepts and learning about personal finance.

Over the duration of the year, I managed to:

- learn Full Stack Web Development subjects of frontend, backend, and database like MySQL, SQL, MongoDB and many more about Full Stack Development.
- Learned Full Stack development on resources like W3School, JavatPoint, and did Great learning course of React Js and MySQL on this period of time.
- After completing graduation I learned about personal finance like Equity investment, mutual funds and many more.
